25X1

0900 - 0945 Discussion led by IC Staff

TOPIC: UNAUTHORIZED DISCLOSURE

BACKGROUND:

The current administration has shown a greater interest in combating unauthorized disclosures than any in recent history. In November 1982, Judge Clark, the President's National Security Advisor, wrote to Cabinet-level officials that classified intelligence could not be used in public statements without his specific approval, in coordination with the DCI.

25X1

All of the above policy and guidance documents, having resulted in no perceptible progress against the leak problem, leaves the central issue as whether the will to do something about unauthorized disclosures really exists.

FOCUS OF DISCUSSION:

The discussion should focus on:

- Proposals for dealing with the unauthorized disclosure of classified information. The DCI proposed twenty suggestions (see attachment) for dealing with unauthorized disclosure. Of particular interest are paragraphs 3 (Charge to Senior Officials); 9-12 (Media Relations); 13 (Investigations [Initiation]); and 19 (Education). The Principals should discuss those proposed suggestions that they believe are most significant to the Intelligence Community and discuss a possible plan for implementation throughout the Community.
- Improved support of the DCI's Unauthorized Disclosure Analysis Center.
- New methods that can be employed to prevent the unauthorized disclosure of classified information.
